

Mission:

To serve individuals and families suffering from addiction by connecting them to the support they need and removing barriers that prevent them from getting well;

To reduce the stigma associated with addiction through informing the public that addiction is a disease that spans all ages, races, and socio-economic status; and,

To provide a safe environment and a variety of services for individuals in recovery to learn, grow, and celebrate their success in recovery.

Overcoming Addiction with Sobriety, Information and Support

OASIS Recovery Community Organization, Inc. is a resource center for those in recovery to learn, grow, and prosper with other like-minded individuals in a safe, sober environment.

OASIS offers a variety of services. Our team members help those who are in need of treatment to find appropriate care. We also provide information to the family and friends of those who are battling substance abuse to help them understand both the physical and mental aspects of addiction.

OASIS can assist those who have just completed in-patient rehabilitation by helping them in their transition as they fully re-emerge as more productive community members. It offers individuals in recovery a safe zone while they are trying to adjust to their new lifestyle.

OASIS is here to help to bring the subject of addiction out of the shadows and eliminate the stigma associated with substance abuse. Addiction is a very real problem that affects everyone regardless of age, nationality, religion, or race. The reality of the situation is that some of the brightest and most successful people in our community have had issues with substance abuse, yet they are afraid to share their success in recovery. Eliminating this stigma will be one of our greatest achievements.

OASIS is here to help individuals not just live in recovery, but thrive!
